

Twin slot uprights 316mm to 2396mm

Traditional Standards / Uprights

features

- The elfa® Twin Slot System features the traditional shelving uprights which are screwed to the wall and available in 8 lengths from 316 mm to 2396 mm.
- The uprights are complemented with 9 different sizes of support brackets which are suitable for use with both melamine and veneered shelves.
- Both standards and brackets are available in White and Platinum
- Bookends and fixing kits are available
- Ventilated shelf brackets and shelves can be used in conjunction with twin slot standards

construction

- Made in eight standard lengths of 2 mm cold-rolled steel. Double slot holes with 32 mm spacing. Countersunk screw holes.
