

Clifton 400 Shoulder Rebate Plane - 11mm width

A fine-mouthed plane suitable for delicate work ideal for demanding woodworkers and cabinet makers.

Machined from quality grey iron casting, the body is precision ground on the sides and sole.

The cutting iron fits snugly onto machined pads and is held in position by a rosewood wedge.

Adjustment of the cutting iron are made by the traditional manner of tapping the end of the iron and locking the Rosewood wedge in place.

Cutting iron : High quality oil hardened steel 59-61 Rockwell 'C', cutting edge ground to 25° primary and 30° secondary.

Cutter Width: 7/16" [11mm]

Body Length : 3 1/8" [80mm]
