

Stainless steel wood screws (Countersunk Pozi)

Features

- 25° sharp point for easy penetration into wood / chipboard / MDF, plastic and thin sheet metal.
- Made from A2 Stainless Steel to give optimum corrosion resistance.
- Double countersunk reduces the likelihood of head shear and assists completion of countersinking.
- 40° deep single thread to provide a secure fixing with high pull-out resistance.
- Full batch-traceability to the original steel mill certificate.
- Fully threaded up to 70mm thereafter partially threaded.
- Sold in two-piece strengthened laminated TIMco branded boxes for market appeal and quality recognition.
- Bar-coded to assist in sales and stock control.
