

Fine Filter 45 Litre Extractor - HPLV

Ideal for when limited by budget, or if a dedicated extractor is required for a single machine.

The versatility and functionality of this extractor is greatly increased by the range of accessories and adapters available.

The RSDE1 is a high filtration extractor that filters down to 0.5 microns to minimize the amount of harmful dust in the workshop.

Particularly useful for use with machines that produce finer dust, such as saws or sanders.

The compact but powerful nature of this machine makes it ideal for workshops with limited space.

Specifications:

Filtration: 0.5 Micron

Air Flow: 53 litres / second

Capacity: 45 litres

Motor: 1 kW

Weight: 11 kg

Size: H620 x W530 x D360 mm
