

# Planer blade setting jig

Makes knife setting simple, easy and accurate. The jig fixes to the cutter block magnetically and with the blades loose in the block the dial and gauge control the setting rod which attaches to the blade magnetically and allows you to make precise settings easily. Then you simply lock off the blades, remove the jig and get working again - all in a matter of minutes. Suitable for all common planers from 10" to 16".
