

Door Knocker Fb338 =

MARCUS BLACK IRON DOOR KNOCKER ON BACKPLATE FB338

Fixing Bolt centres 126mm

Simple black iron door knocker on a large backplate a perfect piece to make a statement on your front door. Part of the latest smooth, black iron range of external hardware from M. Marcus.

To meet modern design preferences M. Marcus have removed the deep surface indentations found in traditional black ironmongery. Leaving only the natural surface grains to create a rustic yet smoother contemporary appearance. These black iron door knockers will complement traditional solid wooden doors or light coloured door fronts. Through use and time, the metal will not be effected by the elements due to quality and production process.

All the black door knockers in this collection are made from malleable iron, treated with zinc phosphating process and then powder coated that has unique UV protection added to the coating process making these handles a great choice for external use.

Supplied in SINGLES complete with fixings.
