

Cabin hook =

MARCUS BLACK IRON CABIN HOOK FB154

Decorative black iron cabin hook that is part of the latest smooth, black iron range of external hardware from M. Marcus, perfect for creating a unified look to your front door.

To meet modern design preferences M. Marcus have removed the deep surface indentations found in traditional black ironmongery. Leaving only the natural surface grains to create a rustic yet smoother contemporary appearance. These black iron cabin hooks will complement traditional solid wooden doors or light coloured door fronts. Through use and time, the metal will not be effected by the elements due to quality and production process.

The smooth black cabin hooks in this collection are made from malleable iron, treated with zinc phosphating process and then powder coated that has unique UV protection added to the coating process making these hooks a great choice for external use.

Supplied in SINGLES complete with fixings.
