

Cabinet Hardware Fb6369 =

MARCUS BLACK IRON CUPBOARD RING PULL FB6369

As part of M. Marcus' latest range of smooth, black iron cabinet hardware we have this decorative and traditional black iron cupboard ring pull.

To meet modern design preferences M. Marcus have removed the deep surface indentations found in traditional black ironmongery. Leaving only the natural surface grains to create a rustic yet smoother contemporary appearance. These black iron cabinet pulls will complement traditional solid wooden or light coloured doors. Through use and time, the metal will not be affected by the elements due to quality and production process.

The smooth black cabinet pull handles in this collection are made from malleable iron, treated with zinc phosphating process and then powder coated that has unique UV protection added to the coating process to maintain the black colour and prevent fading.

Supplied in SINGLES complete with fixings.

Dimensions:

Height: 67mm

Width: 57mm

Ring: 42mm
