

# Jedo Upvc Espagwindow Handle Polished Brass=

FRELAN JW79LPB ESPAGNOLETTE WINDOW FASTENER

The espagnolette casement fastener from Frelan Hardware is suitable for uPVC, composite and timber windows. They can be fitted on any modern UK espagnolette system or stand-alone window lock. These casement fasteners can be locked, the key clicks into place when inserted and won't fall out of the lock, even when pivoting the lever.

Available in a variety of finishes; polished brass, polished chrome or satin chrome or white so it will suit most interiors.

This espagnolette locking fastener has a long handle with 55mm window clearance to enable greater leverage and it also makes it easy to operate without catching a hand on the window.

This window fastener is part of the PVCu range from Frelan Hardware. This collection of casement fasteners and lever handles is equally at home with PVCu or wooden windows and doors.

Supplied complete with spindle and screws.

.
