

Ambassador range - Switched 13A sockets, primed white

Standard UK wall sockets.

The Primed white finish allows these to be painted or papered to match walls and surroundings.

It is recommended that they are painted prior to installation to avoid paint run marks.

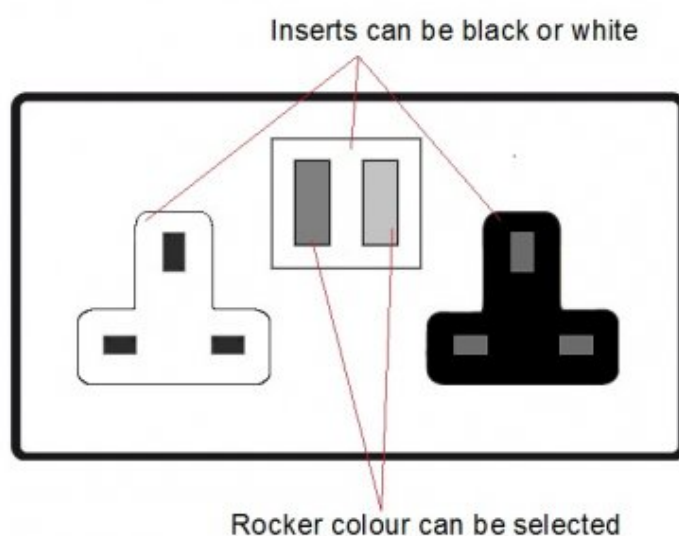

The plastic inserts can be black or white.

The actual rocker switches are available in a variety of colours allowing the product to be tailored to its environment.

Please note: these ranges require a MINIMUM 35mm depth metal back box and are secondary fix.

**** These items are MADE TO ORDER from component parts. If your order is urgent please contact us to clarify lead-in times. As they are made to order according to your selected options, any returns will incur a 30% re-stocking charge ****

Bespoke switch arrangements are possible to order, please contact us with your requirements.
