Treatex Colour Tones have been designed to give you a beautiful range of colours with which you can change how your floors, doors, stairs and worktops look and feel, without hiding the grain or the natural beauty of the wood. This allows you to match the colours in your home when every piece of wood is different, being that every tree is unique. Treatex Colour Tones penetrate deep into the wood and enhance its natural beauty, manufactured on a base of natural sustainable raw materials and then completed with natural pigments used to colour the oils.

With the quality of Treatex finishes, floors can be finished with excellence, improving both the look and appeal of a laid wooden floor. Natural and durable, their hardwax oils are a great choice for finishing wood flooring, providing a naturally oiled effect once dry. Easy to apply and versatile.
