Additional information

These T Hinges have a 'Gothic shaped' pointed end and is one of our most popular choices for hanging ledged and braced/plank doors.

A quality T Hinge which has been cast to very high standards using top of the range materials which makes it exceptionally strong and gives a smooth surface.

The traditional way of choosing a hinge size means it should reach two thirds of the way across the door but providing it reaches at least half way across it should carry the weight of most doors with no problems. For especially heavy doors a third hinge can be used (three on one door).

Sold as a set and supplied with necessary fixing screws.

Suitable for internal or external use but maintenance instructions must be followed to preserve the finish of your product.
