

Adventure Stainless steel Stack Mug

It's made from stainless steel - so it will not rust and it is naturally BPA free.

It's designed and built for the outdoors so is more than capable of surviving the odd knock or two which makes it ideal for use on site.

Vacuum insulation means that given the right conditions this mug can keep hot drinks hot for up to 45 minutes, cold drinks cold for 4 hours and iced drinks iced for up to 15 hours.

It's dishwasher safe and large enough for a full US Pint (473ml) of your favourite tasty beverage.
