

ANVIL 33270 Beeswax Gothic Lever Latch Set=

Beeswax Gothic Lever Latch Set

Product information

Backplate size: 9 3/4" x 1 3/4" (248mm x 44mm)

Handle Length: 4 3/8" (110mm)

Additional information

The Latch version of the Gothic handle is designed to be used in conjunction with a Mortice Latch which allows your door to stay closed and is commonly used on internal room doors.

The handle incorporates a strong spring mechanism and therefore can be used with old, existing latches as the handle will always spring back to the horizontal position (see above link).

Made entirely from steel these beautifully hand crafted levers are not only pleasing to the eye but also comfortable to use.

Sold as a set and supplied with necessary fixing screws.

Suitable for use internally but can be used externally if in a protected porch etc. Maintenance instructions must be followed to preserve the finish of your product. See related products below for dedicated external finishes.

Finished in Beeswax
