

# SUPERFLEX2 trowels

## Superflex2 Stainless Steel Skimming Trowels

- Slightly narrower & with a longer bracket which makes the blade stiffer
- Rounded edges and tapered blade
- Guaranteed one year for trade use
- Produced with soft composite handle
- Composite leather & cork handles available
- Made in Germany

The SUPERFLEX trowels are produced with a flexible stainless steel blade, with alloy frame and moulded soft grip handle. These trowels are lightweight and easy to use on multi-finish, skimming and board finish plasters. The narrower SUPERFLEX2 trowels have a 4 1/2" wide blade and a longer bracket which makes the blade slightly stiffer. Our range of additional handles include leather, cork and wood that can be easily changed.
