

# Crush-Tuff Shallow Feeder Buckets

From the Perry Equestrian Range comes the Crush-Tuff™ Shallow Feeder Bucket. With a moulded, reinforced and rigid design, the Crush-Tuff™ feature means this bucket can be pushed back into shape, even if your horse or pony stamps on it! The Perry Equestrian Crush-Tuff™ Shallow Feeder Bucket is stackable and carrying is easy thanks to the comfort rolling grip handle.

All Perry Premium buckets are manufactured to be stronger, tougher and more resilient than the market standard.
