

Micro Sweep

Flexcut Micro Tools make the job of carving those extra fine details far easier, letting your woodcarving come alive. These gouges give you exceptional control when carving fine details such as mouths and eyes or adding texture such as hair, fur and feathers. The well-shaped ash handles fit perfectly in the hand, overall length: 142mm. Made in USA.

A set containing all four sizes IS available, just select "Flexcut - Kits and sets" from the list of brands to view all available sets.
