Additional information

The newbury set is part of the period range of sprung lever handles. The simple and slender design fits well into many different property types.

Our weighty newbury lever handle range is forged from solid bronze which emphasises the high quality materials and manufacturing techniques used. A perfect design choice to use throughout your property with many other matching products available.

This finish is manufactured from solid unlacquered bronze containing a minimum of 85% copper. Our Polished Bronze finish is matt and rich due to the finishing process we use to age the metal, this process initially darkens the material, however the finish will gradually oxidize over time revealing the warmer copper undertones. This finish has been salt tested to 480 hours.

This handle has a strong spring incorporated into the stylish boss design to give both functionality & elegance.

Lever handle for internal and external doors where locking is either required or not required.

Set includes 2 lever on rose handles.

Can be used with a multitude of standard locks, euro locks, latches, escutcheons & thumbturns for various uses within the home.

Supplied with matching SS bolt through fixings & SS wood screws.
