

Silicone 500 all colours

PRODUCT DESCRIPTION

EVERBUILD® EVERFLEX® 500 Bath & Sanitary Silicone is an acetoxy cure silicone sealant that cures quickly to provide a permanently flexible, high strength waterproof seal. Specifically designed for sanitary applications and for areas of high humidity. It contains a powerful fungicide to prevent mold growth.

USES

All internal sealing in areas of high humidity or subject to condensation.

Sealing around baths, showers, basins and sanitary ware.

Sealing around work tops and laminates.
Cap sealing to metal, timber and PVCu window frames.

As an adhesive for fixing PVCu trims and panels.
General weatherproofing applications.

CHARACTERISTICS / ADVANTAGES

Will not discolour on aging even in humid/damp conditions.

Permanently flexible.

Quick curing - low dirt pick up.

Waterproof seal.

Certified under the harmonized European standard

EN15651 for façade, glazing, cold climate and sanitary applications in compliance with the Construction Product Regulation.
