

Anvil Monkeytail Fastner Beeswax

information

Overall Length: 112mm

Handle Length: 90mm

Fixing Plate Size: 57mm x 20mm x 5mm

Mortice Plate Size: 76mm x 19mm

Additional information

The Monkeytail fastener is forged from steel, is reversible (not handed) and can therefore be fitted to either the left or the right side of the window.

It is suitable for use on windows that have a draft seal due to the mortice plate allowing the window to be pulled as tight to the frame as the seal allows.

For windows without a central mullion the Hook Plate must be ordered separately

Suitable for internal use or when in areas with high moisture care and maintenance guides must be followed fairly regularly.
Sold as a set with matching fixings.

Finished in Beeswax
