Additional information

The newbury stay is part of the period range of window furniture. A simple subtle design that will suit any setting.

Our weighty newbury window stay is forged from solid bronze which emphasises the high quality materials and manufacturing techniques used. A perfect design choice to use throughout your property with many other matching products available.

This finish is manufactured from solid unlacquered bronze containing a minimum of 85% copper. Our aged bronze finish is matt and rich due to the finishing process we use to age the metal, this process initially darkens the material, however the finish will gradually oxidize over time revealing the warmer copper undertones. This finish has been salt tested to 480 hours.

Designed to match the newbury window furniture.

Available in three different sizes.

Supplied with matching wood screws.
