

# Alpha Chem MM70 Ultra Strength Grab Adhesive

AlphaChem MM70 is an ultra highstrength, fully elastic, hybrid grab adhesive that is 4 times more powerful than a conventional hybrid, therefore eliminating the need mechanical support in most applications.

This high strength grab adhesive had been specifically formulated to provide a stronger and longer lasting bond, even on wet surfaces, in fact in all weather conditions. With numerous internal and external uses, superb adhesion qualities, rapid curing, non-shrink, solvent free and overpaintable (with water based paints only\*), MM70 is the ultimate in new grab adhesive technology. Typical bond strength is 250Kg/m<sup>2</sup>.

Suitable for use on numerous different substrates including metal, glass, wood, concrete, plasterboard, stone, polyester and much, much more.

## Benefits:

- \* Can be applied to wet surfaces
- \* Weatherproof
- \* Solvent free
- \* Quick curing
- \* For interior and exterior use
- \* Remains fully elastic

## Limitations:

- \* If used on overhead applications always use in conjunction with mechanical fixings. For large and heavy items provide temporary support until fully cured.
- \* Not suitable for joints subject to permanent immersion in water, or surfaces that bleed oils or plasticisers.
- \* Not suitable for use on polypropylene, polyethylene, or polytetrafluoroethylene branded as Teflon.
- \* Can cause staining – always make sure to test a small inconspicuous area first.
- \* Yellowing can occur in dark conditions.
- \* \*As quality and type of paint can vary always test a small inconspicuous area before full scale use.
- \* It is the user's responsibility to determine suitability for use.

## Price

AlphaChem MM70 - 290ml Tube (Product reference 9226-20882)	£5.03
AlphaChem MM70 - Box of 12 (Product reference 9226-20883)	£50.25
