

Caving kit - basic - RZ001

RAZOR EDGE carving Tools are RAZOR SHARP !!!

Hand made in the USA, the quality of these items are of an extremely high standard. with a comfortable walnut handle and a choice of others available, Razor edge offer something for every hand.

Due to the manufacturing process the non-sharpened areas of the blades caqn be dark in appearance. This is a result of the manufacturing process not of corrosion. That said, the blades are not manufactured from stainless steel and so appropriate steps must be taken for cleaning and storage of them.

*** Please note this kit is not supplied with a case ***
