

Anvil 90282 - Polished Nickel Euro Cylinder Door Pull (Back-to-Back)

Used on front doors to match other door fittings from the range. This cylinder pull should be fitted behind the Euro cylinder to assist in pulling the door closed.

This back-to-back fixing door pull fits to either side of your door and pulls tight towards each other for a secure fit.

Sold with matching bolt-through fixings which are concealed from the external side of the door. Suitable for door thickness up to 64mm.

Finish: Polished Nickel

Overall Size: 90mm x 50mm

Backplate Size: 69mm x 50mm

Projection: 21mm

Plate Thickness: 10mm

Fixing Centres: 38mm
