

Combination spanner - with reversible ratchet

These spanners are made from chrome vanadium steel and feature a 72 tooth chrome-molybendium ratchet ring. 15 degree offset of the ratchet ring keeps the body of the spanner clear from the work. Ratchet direction can be reversed simply and quickly with a flick of the lever.

Price

10mm reversible ratchet combination spanner (Product reference 10559-28895)	£9.79
