

# TIMCO acrylic caulk

TIMCO acrylic caulk adheres to most substrates, is low odour and can be painted over with most paint types or papered over. Perfect for sealing and filling of internal gaps and cracks such as those between plasterwork, decorative mouldings, skirting boards and architraves.

- Paintable with water based and synthetic paints
- Excellent adhesion without primer on most substrates
- Very low odour curing
- Easy to apply and clean
- Suitable for domestic and professional applications
