

# Marking knife

Considered by many to be the finest marking knives manufactured in the world.

The handles are made from robust and hard wearing stained hornbeam that has been varnished for protection and comfort during use.

The manganese vanadium steel blade is hardened to 61HRC and is razor sharp. With a light stroke it will give a clean, clear line to work to and with a slight pressure will give a line deep enough to anchor a chisel blade.

Overall length is 170mm

## Price

37 x 15 x 3.0mm blade (Product reference 13085-38869)	£15.69
37 x 10 x 1.5mm blade (Product reference 13085-38870)	£14.99
