

287 Heavy Duty Corner Chisel

1" x 1" Blade Length = 9 3/8", Overall length = 18 1/2"

Also known as a "Bruzz", the heavy duty blade on this chisel was originally developed in co-operation with professional woodworkers for a specific application. It is a heavy duty version of the popular cabinet makers' corner chisel, for cleaning up deep corners of mortices and other grooves. The precision ground heavy duty blade and ash handle are designed to withstand the extreme use that craftsmen expect of their equipment. The tool has found favour with timber frame housebuilders and boat makers.
