

8" (200mm) Handle with COARSE & FINE rasp blades 32015

The Microplane Snap-In Rasp system is an extremely versatile tool.

Durable, non-clogging, rustproof blades are available in a variety of profiles, each with coarse or fine options. They are reversible allowing for them to be fitted to give the cutting action on either the push or the pull stroke.

Suitable for wood, plastics, rubber, body filler and others.
