

Parting tool, Fluted - 832

The Fluted Parting Tool from Robert Sorby has a flute running along its bottom edge which creates two sharp spurs at the cutting face. These sever the fibres of the timber to produce a burnished finish. The tapered profile also reduces the risk of binding in the cut.

There are 2 blade sizes available and the tool is available both with or without handle.

The available blade sizes are 3/16" and 2mm.

The overall tool length is 18 1/2", of which 12" is the handle

*** By purchasing this product, you are confirming that you are AGED 18 or over and that the person receiving the delivery is also over 18. Please note that we do occasionally ask for proof of age. ***
