

Sherborne - Lock lever - Polished nickel

FRELAN JV260 SHERBORNE DOOR HANDLE ON BACKPLATE

The Sherborne door handle on back-plate has a very traditional design, the arched shape on the backplate is very popular and the lever curves upwards making it comfortable and easy to grip during use. It is also available in a variety of finishes; polished brass, polished nickel or satin nickel so it will suit most interiors.

This door handle on backplate is part of the designer Jedo range from Frelan Hardware. This collection of lever handles on backplate is manufactured using zinc or brass with a variety of finishes in a selection of classic or stunning modern designs.

This door handle has three handle options to choose from; latch, lock (standard UK) or bathroom. The lever latch option is for use on non-locking doors and features a simple, plain backplate. The lock option is for doors that lock with a key and features a keyhole cut out on the backplate and the bathroom option has a turn and release on the backplate for privacy.

Supplied in PAIRS complete with spindle and screws.

Delivery Times: 2 - 3 days
