

ASBO Anti-Graffiti Coating 5LITRE +

Product Description

EVERBUILD ASBO ANTI-GRAFFITI COATING is a one-part, silicone based, clear coating for use on porous surfaces, designed to protect against costly damage caused by spray paints, marker pens and fly posting. The repellent coating prevents paint from bonding to the treated surface, allowing easy removal of graffiti using just water and detergent, eliminating the need for harsh chemical cleaners whilst UV stabilisers within the product provide enhanced durability. ASBO Anti-Graffiti Coating is easily applied in one single coat and can be used on concrete, render, masonry, brick, porous stone and previously painted surfaces, leaving a semi-gloss finish where applied.

Benefits

Stops paint bonding to the surface, allowing easy removal.

No harsh cleaning chemicals required.

Contains UV stabilisers for enhanced durability.

Can be applied by brush or roller.

Areas For Use

Brick, stone, concrete, painted surfaces and more.

Limitations

Do not apply when ambient surface temperature is below 5°C

Do not apply when rain is imminent or likely within six hours application.

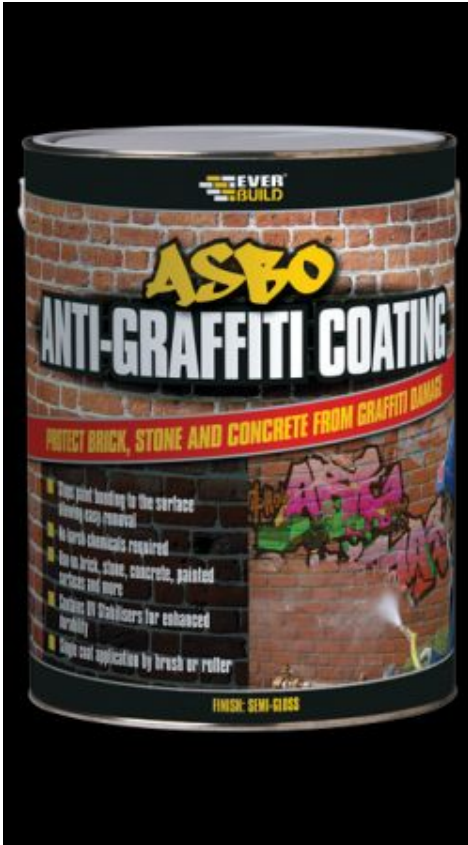

Not recommended for continuous water immersion.

Drying times will be significantly extended in cold temperatures.

ASBO Anti-Graffiti Coating will darken natural stone, concrete and render leaving a semi-gloss finish on all substrates. Always test a small inconspicuous area prior to full application.

When using a pressure washer keep water jet at least 30cm away from surface and always use a fan tip.

- It is the user's responsibility to determine suitability for use. If in doubt contact technical services for advice. 5 LITRE TIN
