

Pull Handle - Cranked - Back to back - Satin stainless steel - 1200

FRELAN CRANKED (OFFSET) T-BAR PULL HANDLE JSS519 (Suitable for glass doors)

A hard-wearing, stainless steel pull handle to fit doors up to 70mm thick.

This pull handle has a modern, yet effortlessly simple design, from quality manufacturer Frelan Hardware. This handle has chamfered fixing posts so that it is offset diagonally at a 45° angle to the door.

The cranked pull handle has a contemporary design great for both commercial and residential applications. This handle is part of Frelan's range of designer door handles.

Supplied complete with bolt through and back to back fixings for wooden or glass doors.

Nb: For back to back fitting bolts will need to be cut to size. The longest length of bar handle comes with three fixing points.

Dimensions: 1200mm
