

Door Knocker - Sloane - Satin chrome

The Sloane scroll door knocker is available on a round rose to avoid the knocker making indentations on your door during use. It is part of our range of front door furniture from Frelan Hardware's latest JEDO collection. Matching letter plates, door bell pushes and door knobs or a scroll knocker on square rose are also available to create a fully unified look to your front door.

This scroll door knocker design is particularly well suited to paneled doors, where a wider knocker would not fit neatly between the panels. Made to a traditional scroll design, this door knocker is available in polished brass, polished chrome or satin chrome finishes, making it well suited to old or new properties.

Supplied in SINGLES complete with fixings
