

ANVIL 33234 Black 35" Hook & Band T Hinge (pair) - Cranked=

Black 35" Hook & Band T Hinge (pair) - Cranked

Product information

Hinge Arm: 32 1/2" (862mm)

Fixing Plate: 7 5/8" x 2" (194mm x 54mm)

Pin Diameter: 3/4" (15mm)

Additional information

These T Hinges have a 'Gothic shaped' pointed end and is a perfect option for hanging large garage or barn doors.

The cranked nature of this hinge allows the door to be fitted in line with the surface of the frame which means there is no need to mortice the fixing plate into the frame of the door.

They are hot forged i.e. drawn to shape, not welded or fabricated and with the knuckle being fashioned in the traditional way it makes for a very strong product.

The traditional way of choosing a hinge size means it should reach two thirds of the way across the door but providing it reaches at least half way across it should carry the weight of most doors with no problems. For especially heavy doors a third hinge can be used (three on one door).

Sold as a set and supplied with necessary fixing screws.

Suitable for internal or external use but maintenance instructions must be followed to preserve the finish of your product.

Finished in Black

REQUIRES frame hooks for a 33234H hook & band hinges. Sold per pair with fixings.
