

Adventure stainless steel vacuum bottle 503ml (17FlOz)

When you have to work on a remote site, or any site without power, if you want a hot drink you have to take it in with you. Keeping your tea or coffee (or hot chocolate) nice and hot is the challenge.

Stanley vacuum bottle flasks are the answer!!

You don't get frills or fuss. What you do get is five hundred and three millilitres of stainless steel, BPA free, vacuum insulated beverage capacity.

It will keep hot drinks hot or cold drinks cold for several hours.

What more could you need?!? A cup?
Oh yeah, the lid is a cup!!
