

## tool rest bar 8" - threaded hole in centre

Part of the NOVA's modular Tool Rest System. The flexible system allows you to mix and match your Toolrest Posts and Supports to create the perfect Toolrest for your needs.

For use with one of the NOVA Tool Rest Posts (to be purchased separately).

The 8 Inch/200mm length, is perfect for most Mini Lathes or when you want more precise tool control for smaller work on a larger lathe.

Manufactured from cast steel with a stainless steel top rod for durability and smooth operation.

- M10 x 1.5 thread size
- Requires one of the NOVA Tool Rest Posts (additional purchase)
- Enables you to unfasten NOVA Tool Rest Posts and attach as needed.
- Perfect for most lathes, including NOVA lathes.
