Additional information

Our rim cylinder pulls are designed to work with a rim cylinder and night latch. This product is used on entrance doors to pull or push the door into the open/closed position.

Our external beeswax is unique to "From the Anvil" and is manufactured from an anti-corrosive beeswax which is salt tested to 480 hours. It has a matt richness and similarly to our standard beeswax the depth of colour ranges from blue to deep red ochre.

Designed to match our other external beeswax front door furniture to create a feature entrance door.

Held in place by the rim cylinder which compresses with the night latch to tighten & fix.

Includes a location pin on rear to stop any rotational movement.
