

# Pewter Rim Cylinder Pull =

Pewter Rim Cylinder Pull 91509

Product information

Overall Size: 81mm x 50mm

Backplate Size: 53mm x 50mm

Projection: 26mm

Plate thickness: 5mm

Additional information

Our rim cylinder pulls are designed to work with a rim cylinder and night latch. This product is used on entrance doors to pull or push the door into the open/closed position.

Our pewter finish is elegant and beautifully highlights the texture of the steel. The unique and complex process runs deep into the metal resulting in an unmatched contrast of texture and colour.

Designed to match our other pewter front door furniture to create a feature entrance door.

Held in place by the rim cylinder which compresses with the night latch to tighten & fix.

Includes a location pin on rear to stop any rotational movement.
