Additional information

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

Our art deco range is forged from solid bronze which emphasises the high quality materials and manufacturing techniques used. A perfect design choice for external doors with matching products available.

This finish is manufactured from solid unlacquered bronze containing a minimum of 85% copper. Our aged bronze finish is matt and rich due to the finishing process we use to age the metal, this process initially darkens the material, however the finish will gradually oxidize over time revealing the warmer copper undertones. This finish has been salt tested to 480 hours.

Designed to match our art deco centre door knob to create a uniform feeling on your front door.

Fixed to your door using a bolt-through fixing for the knocker and strike plate, which is finished with a small feature knob on the internal side of the door.

Supplied with matching 110mm stainless steel threaded bolts which provides a bolt-through fixing.
