

Kirkpatrick 879 Antique Lever Handle

This quirky Lever Handle 879 is certain to make a design statement on your interior doors. Unlike most lever handles, this beautiful design does not feature the traditional long backplate. The handle itself has scroll detail, which adds to its unique style.

This handle is spring loaded and has a two coat protective finish. Due to the size of the backplate being 50mm (2″) it is only available in a latch option meaning this product is not suitable for exterior doors.

Please note: This product is priced in pairs.
