

Kirkpatrick 3066 Centre Door Knob

This Antique Centre Door Knob 3066 is part of our Black Iron collection. A centre door knob is larger in size than a traditional pair of door knobs and is used for pushing open and pulling closed doors as it is fixed. This style of Door Knob was very popular in the Georgian era as it creates an impressive looking design paired with a letter plate and door knocker.

Knob size: 82mm

Plate size: 101mm
