

# Butt chisel - PREMIUM wood line plus

Small ergonomic handle is made of beech wood and is fitted with a brass ferrule. The short round handle comfortably fits in the ball of the hand allowing the user to easily direct the blade into position and achieve an accurate paring or cut along the joint.

Butt chisels are designed primarily for use in cutting and paring tasks.

The blade itself forged from highly alloyed Cr-Mn steel and heat treated up to 59 HRC.
